Languages	Javascript, HTML, CSS, Python, Java, C, C#
Technologies	React, Vue, Node.js, Git, Figma, AWS
Databases	MongoDB, Firebase, Redis, MySQL

Experience

Software Engineering Intern – Dialpad Inc.
Jun 2022 – Sept 2022
- Used Vue to create, update, and maintain standardized components that are used by the designers to build the web app.
- Provided continual support to designers and developers using the library through internal communication and updates to the documentation website.
- Collaborated with the team using agile workflow, attending, and sharing input in sprint planning, scrum meetings and retrospectives.

Office Administrator / Dispatcher – A&B Simple Logistics Ltd.
May 2018 – Jan 2020
- Planned appropriate routes based on distance and timing
- Automated parts of the data entry workflow
- Designed and built the company a static webpage

Banquet Cook / Line Cook – Northview Golf & Country Club
July 2011 – May 2018
- Prepared food for banquet functions of up to 200 guests
- Conducted all line cook duties for a high-volume restaurant, including prep work, cooking food to order, and keeping food fresh

Projects

Abalone AI Sandbox – School Project 2022
Python
- Built a game playing agent from the ground up with a team of 4 by creating a state generator, a variety of state evaluating heuristic functions and a minimax agent search algorithm
- Our agent participated in a trial tournament against peer agents and won all games

GreenSpace – School Project 2021
HTML, CSS, Javascript, Node.js, Firebase and AWS
- Designed and developed a plant search system which interfaced with a plant database API and google image search API
- Took the role of Product Owner and provided guidance and support to my team by leading scrum meetings and planning project milestones

Trackerly – Winter Hacks 2021
HTML, CSS, Figma
- Collaborated with my peers on a 48-hour Hackathon focusing purely on a wireframe made with Figma
- Won Best Visual Award

Education

Computer Systems Technology Diploma
Jan 2021 – Jan 2023
British Columbia Institute of Technology

Interests

Game Development   AI Computing   Music Production   Home Cooking
